## Heated Pizza & Curry Delivery System

Winners of 'Best New Product Award' in the Equipment category at the prestigious 'PAPA' Pizza, Pasta and Italian Food Industry Awards in London.

The heated delivery bags have been developed with the food operator in mind. Tough, washable and British made.

Because the 90° (C) 194° (F) heat is continuous, the food inside does not sweat. It stays at a constant temperature and is ready to serve to the customer as though it had just come out of the oven.

3 Way in Store Transformer

Car Charger

### FEATURES & BENEFITS:

Simply plug the Sweetheat heated pizza delivery bag into our Sweetheat powered shelving unit or our 3 way in store transformer to keep the bags 'Oven Hot'.  
"It's like having a little cloth oven in your takeaway."  
"Keeps pizza hot to go". "No more timing worries".

### BOTH APPLICATION;

- Provide 90° (C) 194° (F) of heat top & bottom.
- Keeps the food hot in the store and to your customer's door.
- Keeping pizza continuously hot dramatically increases your store's delivery area and falls in line with any impending hygiene regulation.
- Keeps your customers coming back and your business ahead of the competition.
- Each Sweetheat Heated delivery bag only requires an amazing 33 watts of power.

### THE SWEETHEAT HEATED 'PIZZA' DELIVERY BAG

The Sweetheat Heated Pizza delivery bag has detachable, flexible heating pads in the top and bottom of the bag. The two heating pads provide 90° (C) 194° (F) of heat continually throughout the bag. Thus keeping the pizza 'Oven Hot' to the customers door.

Designed with the delivery driver in mind utilising top and bottom handles for ease of carrying and also non-tangle short lead with 'audio' style jack plugs for ease of use.

- Can be powered either using our shelving unit or 3 way transformer.
- Can hold two large 16" pizza's or three 12" pizza's.

### THE SWEETHEAT HEATED 'CURRY' DELIVERY BAG

With a flexible heating pad all around the curry bag, it provides 90° (C) 194° (F) of heat. The super insulated bag folds around the food creating a 'Heat Lock' effect, which keeps the contents 'Oven Hot' to the customers door.

- Designed with the food operator in mind, the 'Curry Bags' can hold up to 10 large containers and can be used for Fish & Chips, Hot Sandwiches, Kebabs, Chinese or Indian takeaway and most other hot delivery food items.
- Large heated curry bag - designed for carrying multiple orders.
- Size (approx. cm) 40(w) x 40(d) x 35(h)
- Can be powered either using our shelving unit or 3 way transformer.
